EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Gordon H. Telfer on March 1, 2005.

The application has been amended as follows:

Claim 3, line 5, replace "each of the pair" with --each of the pair of pry bars-- .

REASONS FOR ALLOWANCE

2. Claims 1 – 14, 16 - 21 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding Claims 1 – 14 the prior art of record does not teach or suggest, in combination with the claimed elements, a center break switch with a pair pry bars, each of the pair being attached to one of the blades proximate the contact end with the bars arranged to have facing ends that work pivotally against each other during at least part of a switch opening operation of the operating mechanism to facilitate opening of the contacts. Regarding Claims 16 – 21, the prior art of record does not teach or suggest, in combination with the claimed elements, a fulcrum mechanism comprising elements, in addition to switch contacts, located proximate to and behind the contacts in relation to the path of relative motion, that meet to provide a prying action increasing leverage to

help overcome the sliding friction between the contacts in movement through the partly open position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
